The Junction Works' COWPASTURES COMMUNITY GARDEN & MAINTENANCE PROGRAMS

Providing horticultural and trade skills for people with a disability who love being amongst nature and the outdoors

(02) 8777 0500 • info@thejunctionworks.org • www.thejunctionworks.org

NDIS Registration No: 405 000 2486
The Cowpastures Community Garden is located within The Junction Works’ Austral Service Centre, on land formerly used as a market garden.

From Garden to Plate

The Cowpastures team comprises TJW Maintenance & Nursery workers, participants with a disability and local community volunteers. The team grow a range of fruit, vegetables and herbs for use in The Works Teaching Kitchen. Produce is grown in raised garden beds built by program participants, as well as in our 30m polytunnel that was established in 2016 through a community grant from Interlink Roads/M5.

Garden & Maintenance Skill Development

The Junction Works’ Cowpastures Community Garden & Maintenance programs provide significant skills in:

- Garden cultivation and management
- Education about fruit, vegetables and herbs
- Ride-on mower operation & maintenance
- Concreting & building
- Motor mechanics
- Composting
- Woodwork
- Social inclusion & team work

The Cowpastures Community Garden & Maintenance program is just one example of how The Junction Works is supporting people with a disability to develop practical skills around their areas of interest.

For more information about the Cowpastures Community Garden program, please contact The Junction Works on (02) 8777 0500 or via info@thejunctionworks.org.
